*Vol.4 No 1 January 1998*

---

## *Happy New Year to all SPWLA Japan Chapter's Members !*

We had another successful chapter year in 1997 with a support from all the members.

We hope to have another successful year in 1998!

Here is some news for the chapter.

From this issue, we are able to deliver the letter through E-Mail for those members who had an E-Mail account. Please register your mail account to **VP-Membership** so you will receive a newsletters through E-mail from us in shorter time. The information will be in PDF (Portable Document File) format and you are **Free** from an attached **Macro Virus!!**.

You can read/print the file using Acrobat Reader (available on Windows and Macintosh).

First issue (in fact copy of this letter) will be provided on Floppy Disk with a free copy of Acrobat Reader and you can collect it on next chapter meeting on January 26, 1998!

If you are not able to attend next chapter meeting, you can contact Toda by E-Mail to [toda@tokyo.geoquest.slb.com](mailto:toda@tokyo.geoquest.slb.com) so you can have it on your machine by returned E-mail.

## **The Best Paper of the Third Well Logging Symposium**

A vote for selecting the best paper of the third well logging symposium was held during the symposium. Among total number of 99 votes, two papers obtained the exactly same number of votes and both were selected as the best paper.

These are;

**Integrated Interpretation of Microseismic Clusters and Fracture System in Hijiori HDR Reservoir,**  
by **Kazuhiko Tezuka**(Japan Petroleum Exploration Co. and **Hiroaki Niitsuma**(Tohoku University)

**Petrophysical Evaluation of Sonic Logs in Shaly Sands,**  
by **Alain Brie** (Schlumberger K.K.)

The plates will be given to the authors in the next Well Logging Symposium.  
We congratulate their award.

## **Invitation to 20th Chapter Meeting**

We would like to announce that the forthcoming chapter meeting will be held as follows.

**Venue : Geothermal Energy R & D Co.,Ltd. (GERD)**  
Kyodo Bld. 4F, 11-7 Kabuto-cho, Nihonbashi  
Chuo-ku, Tokyo  
(See the map attached)

**Date : On Monday, January 26, 1998**

**Program :**

16:00 "Introduction of the integrated geothermal reservoir modeling system "  
by Tatsuya Sato (GERD)

17:30 Snacks Buffet

## **About the Speaker**

Tatsuya Sato is presently the deputy manager of reservoir engineering division of Geothermal Energy Research and Development Co.(GERD). Sato has been with GERD since 1990 where he joined reservoir division after he graduated Akita University. He has been worked to develop the Multi-Frequency Array Induction Logging Tool(MAIL), Data-Base system(GEOBASE) and Integrated geothermal reservoir simulation system, etc.

## **About the topics**

GEOBASE is a client server database system that digitized subsurface information and display it as four dimensional information(space and time) in the configuration. Sato will demonstrate the feature of GEOBASE which developed with PC. He also introduce the mapping system for Reservoir modeling/Reservoir simulation/ Management/ Pre-processor and Post processor system for the reservoir simulator.
